

Sean M. Baskin

Summary

Experienced polyglot software engineer and consultant with a background in computer science, geographic information science, and mathematics. Creative yet pragmatic in development and implementation, as well as problem resolution. Excellent written and oral communication skills and interpersonal dynamics, with proven ability to effectively use those skills to ensure transparency and agreement between technical and non-technical stakeholders. Engaged and knowledgeable individual that is goal-oriented, proactive, and effectual.

Education

Credit Hours towards

Aug. 2012 - Dec 2013

Masters in Computer Science

University of Tennessee Chattanooga

- Graduate Teaching Assistant for two (2) semesters.
- Graduate Research Assistant for four (4) semesters.

Post-Baccalaureate in Computer Science

July 2011 - May 2012

University of Tennessee Chattanooga

Bachelor of Arts in Geography

Aug. 2007 - May 2011

University of Tennessee Knoxville

- [Award recipient](#) at the [Exhibition of Undergraduate Research and Creative Achievement \(EURéCA\)](#).
- Engaged in directed research under [Dr. Bruce Ralston](#) on advanced web mapping techniques including map classification functions, customized user interfaces, and developing data services.
- Tutor at the UTK Math Tutorial Center.

Certifications

- AWS Certified Developer - Associate
- Adobe Certified Expert Flex 4.5

Skills

Front-end Development

ECMAScript 2016, JavaScript, NodeJS, AngularJS, ExpressJS, d3.js, Yarn, Webpack, Android, Apache Flex

Back-end Development

Java SE 12, Java EE 8, Maven, JUnit, Mockito, Java Persistence API (JPA), Hibernate, Spring Framework, Spring Boot, Spring Web MVC, Spring Data, Spring Security, Spring Batch, Quartz, Apache Tomcat, Apache ActiveMQ

Data Stores

Oracle, MS SQL Server, PostgreSQL, SQLite, MongoDB, DynamoDB, Redis, Lucene/Solr

Amazon Web Services

Lambda, API Gateway, VPC, EC2, S3, EBS, IAM, ELB, Route 53, RDS, DynamoDB, AWS CLI

DevOps

Jenkins, Docker, Ansible, Packer, Terraform, Consul, Nomad

Programming Languages

Java, JavaScript, Python, C, C++, Go, R, Julia, SQL, Bash, ActionScript

Software Engineering

Agile Methodologies, Test-Driven Development (TDD), Continuous Integration (CI), Continuous Deployment (CD), Enterprise Integration Patterns (EIP), Version Control Systems

Computer Science

Algorithms and Datastructures, Programming Methodology, Systems Programming, Theory of Programming Languages, Computer Architecture, Computer Networks, Cloud Computing, Mobile Computing, Systems Software, Computational Geometry, Machine Learning

Geographic Information Science

Cartography, Coordinate Systems and Projections, Spatial Data Models, Remote Sensing, Spatial Statistics, Geostatistics, Geovisualization, Spatial Decision Support Systems (SDSS)

Mathematics

Set Theory, Graph Theory, Topology, Combinatorics, Probability, Differential Equations, Calculus, Linear Algebra, Statistics

Experience

Software Developer

April 2014 - Aug. 2018

BNL Consulting, LLC.

- Designed, developed, or contributed to seven (7) client projects.
- Designed and implemented microservices to automate internal workflow components and processes for client's existing commercial SaaS offering.
- Technical lead for internal R&D project that containerized our commercial SaaS application and subsequent deployment using Infrastructure-as-Code, configuration management, container orchestration, and public/private cloud platforms that was included in our product offering.
- Core developer for two (2) year client project that entailed refactoring existing application from .NET to Java, implementing RESTful web services, improving ETL and analytics processes, expansive search functionality, and data modeling.
- Contributed to the development of business intelligence / analytics web applications utilizing NodeJS, AngularJS, and d3.js.
- Authored blog posts [Cloud-First Microservices: AWS API Gateway and Lambda in Action](#) and [Visualizing Clusters with ArcGIS for Flex](#).

Open Data Specialist

Feb. 2014 - April 2014

Chattanooga Public Library

- Coordinated with the City of Chattanooga Mayor's Office and various departments to identify and disseminate government data to the public.
- Evaluated available data portal solutions and managed chosen platform.

Consultant

Jan. 2014 - Feb. 2014

Self-Employed

- Configured, deployed, and designed a WordPress instance for the client.
- Produced thematic maps for one-hundred seventy (170) miles of the Etowah River Water Trail.

Graduate Research Assistant

Aug. 2012 - Aug. 2013

University of Tennessee Chattanooga

- Contributed to the development of a distributed geospatial web application within the context of the Thrive 2055 initiative.
- Additionally, developed an Android application for the collection of WiFi signal strength and location data for the campus of the University of Tennessee at Chattanooga.

Sean M. Baskin

Software Developer

May 2012 - Aug. 2012

SecondSite, LLC.

- Contributed to the development of an augmented reality (AR) mobile application for the Smithsonian National Museum of African American History and Culture.
- Contributed to the development of an augmented reality (AR) mobile application that provided an innovative system for the maintenance of art and artifacts.

GIS Consultant

Feb. 2012 - April 2012

Self-Employed

- Provided consulting services to SecondSite, LLC and the SimCenter Enterprise for Disaster Mitigation Plume/Evacuation Scenario Modeling as part of the U.S. Ignite Initiative.
- Developed custom ETL processes and three-dimensional mesh artifacts from high-precision urban LiDAR datasets.

Graduate Research Assistant

June 2011 - Feb. 2012

University of Tennessee Chattanooga

- Assisted in the deployment and management of ArcGIS Server and ArcSDE databases.
- Collected, documented, and organized spatial datasets for the Regional Resource Inventory project.
- Developed RESTful geoprocessing tasks and implemented ArcGIS API for Flex web application to consume them.

Graduate Teaching Assistant

Aug. 2011 - May 2012

University of Tennessee Chattanooga

- Graded papers, assisted in labs, proctored exams, and on occasion stood in for my professor during class lectures.

Intern

July 2010 - Aug. 2011

Tennessee Valley Authority

- Designed and implemented enterprise spatial database of sonar-generated point data for TVA's Tennessee River system, including data management, documentation and metadata, and the production of bathymetric maps, TINs, and DEMs
- Upon request, I fulfilled client tasks pertaining to the data such as cross-section analysis and spatial queries.

Math Tutor

Aug. 2008 - May 2010

University of Tennessee Knoxville

- Tutored students at the UTK Math Tutorial Center on material ranging from Calculus I to Calculus II and proctored exams.

Lifeguard

May 2008 - Aug. 2008

Sportsbarn

Lifeguard

May 2006 - Aug. 2007

YMCA

Cashier

May 2005 - Aug. 2005

Carmike Cinemas

Founder and Owner

Jan. 2003 - Dec. 2005

LoserLabeled.com

- Loserlabeled.com was a website with a focus on skateboarding that offered original articles, tutorials, media, and a vibrant user community.
- It was designed and developed with two partners that utilized search engine optimization (SEO) techniques and Google AdSense program to generate profitable advertising revenue.
